June
and had some unexpected problems, mainly in my private life.
May
I got the flu (I'm all better now —I took Tamiflu)..
April
Time flew by after that.
but we still managed to put the book together somehow.

I'm still a novice, and my art is poor, but please continue to support me until the end.

Mrow.

I'm grateful to everyone who stuck with a novice like me, everyone who offered me guidance, and all of you out there who picked up this book.

Oh, I've started to cry. Maybe it's my age—I'm easily moved to tears now. Mrow
